GARFORTH URBAN DISTRICT COUNCIL

COUNCIL OFFICES,

GARFORTH.

ANNUAL REPORT

OF THE

MEDICAL OFFICER OF HEALTH

FOR THE YEAR 1939.

Mr. Chairman and Gentlemen,

I have the honour to submit to you my Annual Report on the Health and Sanitary Administration of the Urban District for the year 1939. Incorporated with it is the report of the Sanitary Inspector.

The Report is an "ordinary" report and therefore mainly statistical.

It will be noted that under the heading of "population" three estimates are given. This is occasioned by the fact that the constitution of the District underwent a change on the 1st April, 1939, when the greater part of two parishes from the Tadcaster Rural District, i.e. Kippax and Allerton Bywater became incorporated with the Garforth Urban District. The figures marked "a" and "b" are composite figures employed in the calculation of the various vital statistics. The figure marked "c" represents the population of the re-constituted District at the end of December, 1939.

I desire to express my thanks to the Chairman and Members of the Public Health Committee and also the Staff of the Department for their co-operation.

GENERAL STATISTICS.

Area (acres)	4,000
Population (a)	9,782
Population (b)	9,897
Population (c)	12,109

The number of inhabited houses
(end of 1939) according to
the rate book

Rateable Value

Sum represented by Penny Rate £170 6s. 3d.

SOCIAL CONDITIONS.

The chief industry in the District is coal-mining, there being one colliery situated within our boundaries, and others in adjoining districts.

Unemployment has declined during the year, many of which have been absorbed in other industries.

EXTRACTS FROM THE VITAL STATISTICS OF THE YEAR 1939.

LIVE BIRTHS:—	Total	Male	Female
Legitimate	168	75	93
Illegitimate	3	1	2
Birth rate per 1000 of the estimated population 17.5			

STILL BIRTHS:—	Total	Male	Female
Legitimate	8	5	3
Illegitimate	—	—	—
Rate per 1,000 Total (Live and Still) Births:—44.7			

DEATHS FROM ALL CAUSES:—

	Total	Male	Female
	109	53	56
Death rate per 1,000 estimated average population 11.34.			

Number of women dying in, or in consequence of
child birth—NIL.

DEATHS OF INFANTS UNDER ONE YEAR OF AGE:—

All infants per 1,000 live births:—46.5

Legitimate infants per 1,000 legitimate live births:—47.4

Illegitimate infants per 1,000 illegitimate live births:—Nil.

Remarks on Total Statistics: The Birth Rate of 17.5 for 1939 shows a favourable and satisfactory increase on that of the previous year which was 14.7.

The following is a table showing the Birth Rate for the past six years.

Year		Garforth		England & Wales
1934	14.5	14.8
1935	15.9	14.7
1936	13.7	15.9
1937	17.7	14.9
1938	14.7	15.1
1939	17.5	15.0

Death Rate:—The Death Rate of 11.4 compares favourably with that for England and Wales. It will be noted that the Birth Rate continues to be higher than the Death Rate. Six years ago the Death Rate was higher than the Birth Rate. The following is a table showing the Death Rate for the past six years.

Year		Garforth		England & Wales
1934	14.4	11.8
1935	10.7	11.7
1936	12.9	12.1
1937	17.2	12.4
1938	8.8	11.6
1939	11.3	12.1

Chief Causes of Death:—These include 12 from Cancer, 47 from Cardio-Vascular diseases, 7 from Respiratory diseases other than Tuberculosis, 3 deaths from Tuberculosis which include 2 from Respiratory and 1 from Non-Respiratory.

A detailed list of Causes of Death is printed in this report.

Infantile Mortality: The Death Rate of Infants under one year of age per 1,000 births continues to be low.

The following is a table showing the Death Rate of Infants under one year of age per 1,000 births for the past six years.

Year		Gariorth	England & Wales	
1934	134.6	59.0
1935	34.5	57.0
1936	81.6	59.0
1937	74.6	58.0
1938	35.7	53.0
1939	46.5	50.0

PREVALENCE OF, AND CONTROL OVER, INFECTIOUS AND OTHER DISEASES.

It will be noted that there were no cases of Diphtheria reported during 1939. I attribute this to the fact that during recent years a high percentage of the children of the District submitted to immunisation.

Small Pox: No cases of Small Pox were reported in the Council's area.

Measles: There was the usual amount of this disease during the year but no deaths resulted.

Whooping Cough: There was a fair amount of this disease during 1939 resulting in one death.

Summer Diarrhoea: There was a small amount of this during 1939 without fatal results.

Influenza: Though there was no marked amount of Influenza during the past year unfortunately two deaths resulted.

Tuberculosis: Ten new cases of Tuberculosis were reported during the year, 7 Pulmonary and 3 Non-Pulmonary. There were two deaths from Pulmonary Tuberculosis and 1 death from Non-Pulmonary Tuberculosis.

Ophthalmia Neonatorum: No cases reported.

NOTIFIABLE DISEASES (OTHER THAN TUBERCULOSIS) DURING THE YEAR 1939.

Disease				Total cases notified	Cases admitted to Hospital	Total Deaths
Smallpox	—	—	—
Scarlet Fever	18	17	1
Diphtheria	—	—	—
Enteric Fever (Paratyphoid)	2	—	—

GENERAL PROVISION OF HEALTH SERVICES FOR THE AREA.

Public Health Officers of the Local Authority.

The Staff consists of the Medical Officer of Health and the Sanitary Inspector. The Medical Officer of Health is a part-time Officer. One-half of the salaries of these officials is recovered from the County Council, The Local Authority provides clerical assistance.

CLINICS AND TREATMENT CENTRES.

Name		Situation.
<hr/>		
Maternity & Child Welfare Centre.	W.R.C.C.	Garforth
School Clinic.	W.R.C.C. Education Authority	Garforth
Tuberculosis Clinic.	W.R.C.C.	Garforth T.B. Dispensary
V.D. Clinic.	General Infirmary	Leeds
<hr/>		

GARFORTH CHILD WELFARE CENTRE.

This Centre is under the control of the West Riding County Council. The mothers attend regularly, and derive particular benefit from the advice given by the staff regarding the Feeding and Welfare of their infants.

LABORATORY FACILITIES.

Bacteriological examinations are undertaken by the West Riding County Council Analysts Department by arrangement with the County Council.

AMBULANCE FACILITIES.

(a) For Infectious Diseases.

We have an arrangement with the Tadcaster Rural District Council for the use of their Ambulance, which is kept at the Isolation Hospital, Garforth.

(b) For Non-Infectious, Maternity and Accident Cases

The Council own a modern motor ambulance for these cases at a fixed charge.

Kippax St. John and Miners' Welfare also serve the district with a modern well-equipped ambulance.

PROFESSIONAL NURSING IN THE HOME.

(a) General.

The District Nursing Association continues to do useful work in the area. The services of a qualified District Nurse are available in general and midwifery nursing.

(b) Infectious Diseases. None.

HOSPITALS.

For Infectious diseases we have an arrangement with the Tadcaster Rural District for the use of the Isolation Hospital at Garforth Cliff, at a fixed charge.

Mortuaries.

The Council owns two Mortuaries; one is situated adjoining the Council's premises in Garforth and the other adjoining the Council Offices in Allerton Bywater.

SANITARY CIRCUMSTANCES OF THE AREA.

Water: The Water is purchased in bulk from the Leeds Corporation; it is of an exceptionally high degree of purity. There has been an adequate and constant supply throughout the year.

Analytical results obtained in the Corporation's Laboratories are as follows:—

Chemical Analysis:—	Parts per 1,000,000	Average No. of Grains per gallon
Total Solids dried at 100°C.	9.75	6.92
Residue on Ignition	6.81	4.79
Nitrogen as free and saline ammonia.....	0.0038	0.0027
Nitrogen as albuminoid ammonia	0.0066	0.0046
Nitrogen as nitrites	Nil	Nil
Nitrogen as nitrates	0.052	0.037
Chlorine present as chloride	1.23	0.85
Oxygen absorbed in 4hrs. at 20°c	0.226	0.163
Temporary Hardness as calcium Carbonate	2.76	1.93
Permanent hardness as calcium sulphate	3.75	2.64
Soap Test:-		
Temporary Hardness	Nil	Nil
Permanent Hardness	4.45	3.12
Total Hardness	4.45	3.12
Lead	Nil	Nil
pH (Lovibond)	8.7	

Bacteriological Examination.

B. Coli was absent in	Quantity	Sample
100%	10 c.c.	Water
93%	50 c.c.	Water
85%	100 c.c.	Water
84%	150 c.c.	Water

DRAINAGE AND SEWERAGE.

The majority of the drainage is by piped sewers, discharging into the sewage disposal works. There are 50 houses situated in Allerton Bywater the only means of drainage of which is cesspools.

The remaining houses in the area unconnected to our disposal works are situated in the outlying parts of the district.

A scheme is contemplated to convert the 50 cesspools in Allerton Bywater into the main drainage system.

The drains and sewers were flushed and disinfected regularly during the year and in the case of new houses water carriage system only is entertained.

Every effort has been made to keep the effluent at the sewage disposal works up to the Rivers Board's requirements.

CLOSET ACCOMMODATION.

No. of privies with open Ashpit	—
No. of Pail or Tub Closets	4
Privies with covered Middens	922
No. of Water Closets	2476
No. of Chemical Closets	4

Public Conveniences: There are modern underground Public Conveniences provided, consisting of 3 W.C.'s and 1 Urinal.

PUBLIC CLEANSING.

Scavenging and Refuse Disposal.

The Scavenging of Garforth Village is carried out by our own workmen.

Cleansing in Allerton Bywater and Kippax is carried out by contract labour.

The removal of house refuse during the past year was satisfactory. Any complaints received were promptly dealt with.

During the year regular inspections were carried out by the Sanitary Inspector and disinfectant powder is distributed free when required.

The refuse is easily disposed of on to agricultural land, and one third of the area's refuse is disposed of on to the Council's tip.

SCHOOLS.

The water supply to the schools continues to be adequate.

RECREATION GROUNDS.

Four Recreation Grounds are provided.

1. Adjoining the Housing Estate at East Garforth.
2. Barley Hill Road, Garforth.
3. Park Avenue, Kippax.
4. Station Road, Allerton Bywater.

Numbers 2 and 3 Recreation Grounds have been constructed into modern playing fields. Full benefit is made of these.

Eradication of Bed Bugs.

During the year certain houses were found to be infested some of which were Council houses. Each of the houses were fumigated with H.C.N. gas under pressure.

Before any tenant will be accepted by the Council their furniture and their home is thoroughly inspected by the Sanitary Inspector, and if bugs are discovered the tenant's furniture, etc., is removed in the van under liquid H.C.N. gas. The bedding is sent to the steam disinfecter.

All houses are visited from time to time and in this way the necessary education of the tenant is proceeded with.

HOUSING.

1. Inspection of Dwelling Houses during the year, 1939:

1 (a)	Total number of dwelling-houses, etc. inspected for housing defects (under Public Health and Housing Acts)	350
(b)	Number of Inspections made for the purpose	400
2 (a)	Number of dwelling-houses (included under sub-head 1 above), which were inspected and recorded under the Housing Consolidation Regulations	250
(b)	Number of Inspections for the purpose	275
3	Number of houses needing further action	
(a)	Number of dwelling houses found to be in a state so dangerous or injurious to health so as to be unfit for human habitation	80
(b)	Number (excluding those in subhead 3a) found not to be in all respects reasonably fit for human habitation	150

2. Remedy of Defects during the year without service of Formal Notices.

Number of defective dwelling-houses rendered fit in consequence of informal action of the Local Authority Officer.	60
---	----

3. Action under Statutory Powers during the Year.

(a) Proceedings under Sections 9, 10 and 16, Housing Act, 1936:—

(1) Number of dwelling-houses in respect of which notices were served requiring repairs	75
---	----

(2) Number of dwelling-houses which were rendered fit after service of formal notices	
(a) By owners	15
(b) By Local Authority in default of owners	Nil

(b) Proceedings under Public Health Acts:—

(1) Number of dwelling-houses in respect of which notices were served requiring defects to be remedied	100
(2) Number of dwelling-houses in which defects were remedied after ser- vice of formal notices	Nil

**(c) Proceedings under Sections 11 and 13 of the
Housing Act, 1936.—**

(1) Number of representations, etc., made in respect of dwelling-houses unfit for habitation	120
(2) Number of dwelling-houses in respect of which Demolition Orders were made	115
(3) Number of dwelling-houses demol- ished in pursuance of Demolition Orders	42
(4) Number of dwelling-houses in respect of which undertakings were accepted from owners—	
(a) To render houses fit for habitation	29
(b) As to usage other than for human habitation	4

**(d) Proceedings under Section 12 of the Housing
Act, 1936:—**

(1) Number of separate tenements or underground rooms in respect of which Closing Orders were made	Nil
--	-----

(2) Number of separate tenements or underground rooms closed in pursuance of Closing Orders	Nil
(3) Number of separate tenements or underground rooms, the Closing Orders in respect of which were determined, the tenement or room having been rendered fit	Nil
4. Unhealthy Areas ,.....	Nil
5. Number of new houses erected during 1939.	
(a) By Local Authority	37
(b) By Private Enterprise	61
Total	98
6. Housing Conditions.	
(1) Total number of houses in the District	3,448
(2) Number of working-class houses included in the above	3,103
(3) General observations as to housing conditions, overcrowding, and shortage of houses. Housing conditions are very fair and constantly improving. We have no overcrowding in the village of Garforth, but unfortunately there are still 61 cases of definite overcrowding and many cases of possible overcrowding in the villages of Allerton Bywater and Kippax to be dealt with. These cases of overcrowding in all probability would have been relieved except for the outbreak of hostilities.	
7. Housing Act, 1936. Part IV. Overcrowding....	
(a) 1. Number of dwellings overcrowded at the end of the year	57
2. Number of families dwelling therein	61

3. Number of persons dwelling therein	348
(b) Number of new cases of overcrowding reported during the year	Nil
(c) 1. Number of cases of overcrowding relieved during the year	1
2. Number of persons concerned in such cases	11
(d) Particulars of any cases in which dwelling-houses have again become overcrowded after the Local Authority have taken steps for the abatement of overcrowding	Nil
(e) Any other particulars with respect to overcrowding conditions upon which the Medical Officer of Health may consider it desirable to report	Nil

INSPECTION AND SUPERVISION OF FOOD.

I. Milk and Dairies Order.

(1) Number of visits to Cowkeepers	72
(2) Number of Cowsheds visited	18
(3) Number of Milk Cows	79
(4) General Conditions and Type of Cow.....	Fair
(5) General Cleanliness of Cows	Good
(6) General Conditions of Sanitation	Good
(7) Chief Methods of Milk Disposal	Retailed Locally

The cowsheds as a whole are kept in a clean condition.

II. Water, Food, and Drugs.

Samples of water taken for analysis	Nil
Samples of water condemned as unfit for use	Nil
Seizure of unwholesome food 4 tons, 14 cwt. 7st.	
Convictions for exposing or selling unwholesome food	Nil
Samples of food and drugs taken for for analysis (Milk)	7
Samples of food found adulterated	2

III. Other Foods.

Number of samples (other than milk) taken by officers of L.A. for examination under the Food and Drugs (Adulteration) Act, 1928	Nil
Number found adulterated	Nil
Number of prosecutions	Nil
Number of bakehouses in the district	11
Total inspections	60
Number of underground bakehouses	1

**CHEMICAL AND BACTERIOLOGICAL
EXAMINATION OF FOOD.**

Examinations under this head are carried out by the West Riding County Council.

BUTCHERS' SHOPS & SLAUGHTERHOUSES.

There are 12 licensed slaughterhouses in the district, one for pigs only, all of which have been periodically visited and found to be kept in a clean and sanitary condition.

SHOPS ACT, 1934, Sections 10 and 13 (3).

There were 180 visits paid under the above Act during 1939, and 20 unsatisfactory conditions were found and remedied.

I am, Gentlemen,

Your obedient Servant,

CLAUDE C. HARGREAVES,

Medical Officer of Health

SANITARY INSPECTOR'S REPORT.

Summary of work done in the Sanitary Inspector's
Department during the year 1939:—
